File Name: "Use Case 2.0 – Review Application.pdf"

File reference:

Document Purpose:

The purpose of this document is to specify the use case (i.e. Review Application) of the project and to identify the performer of the action, the purpose of the use case, and show the actor's interactions and exchanges of information.

Target Audience:

This is intended for the OVPAA, specifically Dr. Rhodora Azanza, and Dr. Jaime Caro.

Revision Date	Person Responsible	Version Number	Modification
09/17/15	Regarde, Patricia Ann	1.0	Initial Document

Use-Case Name: 2.0 Review Application

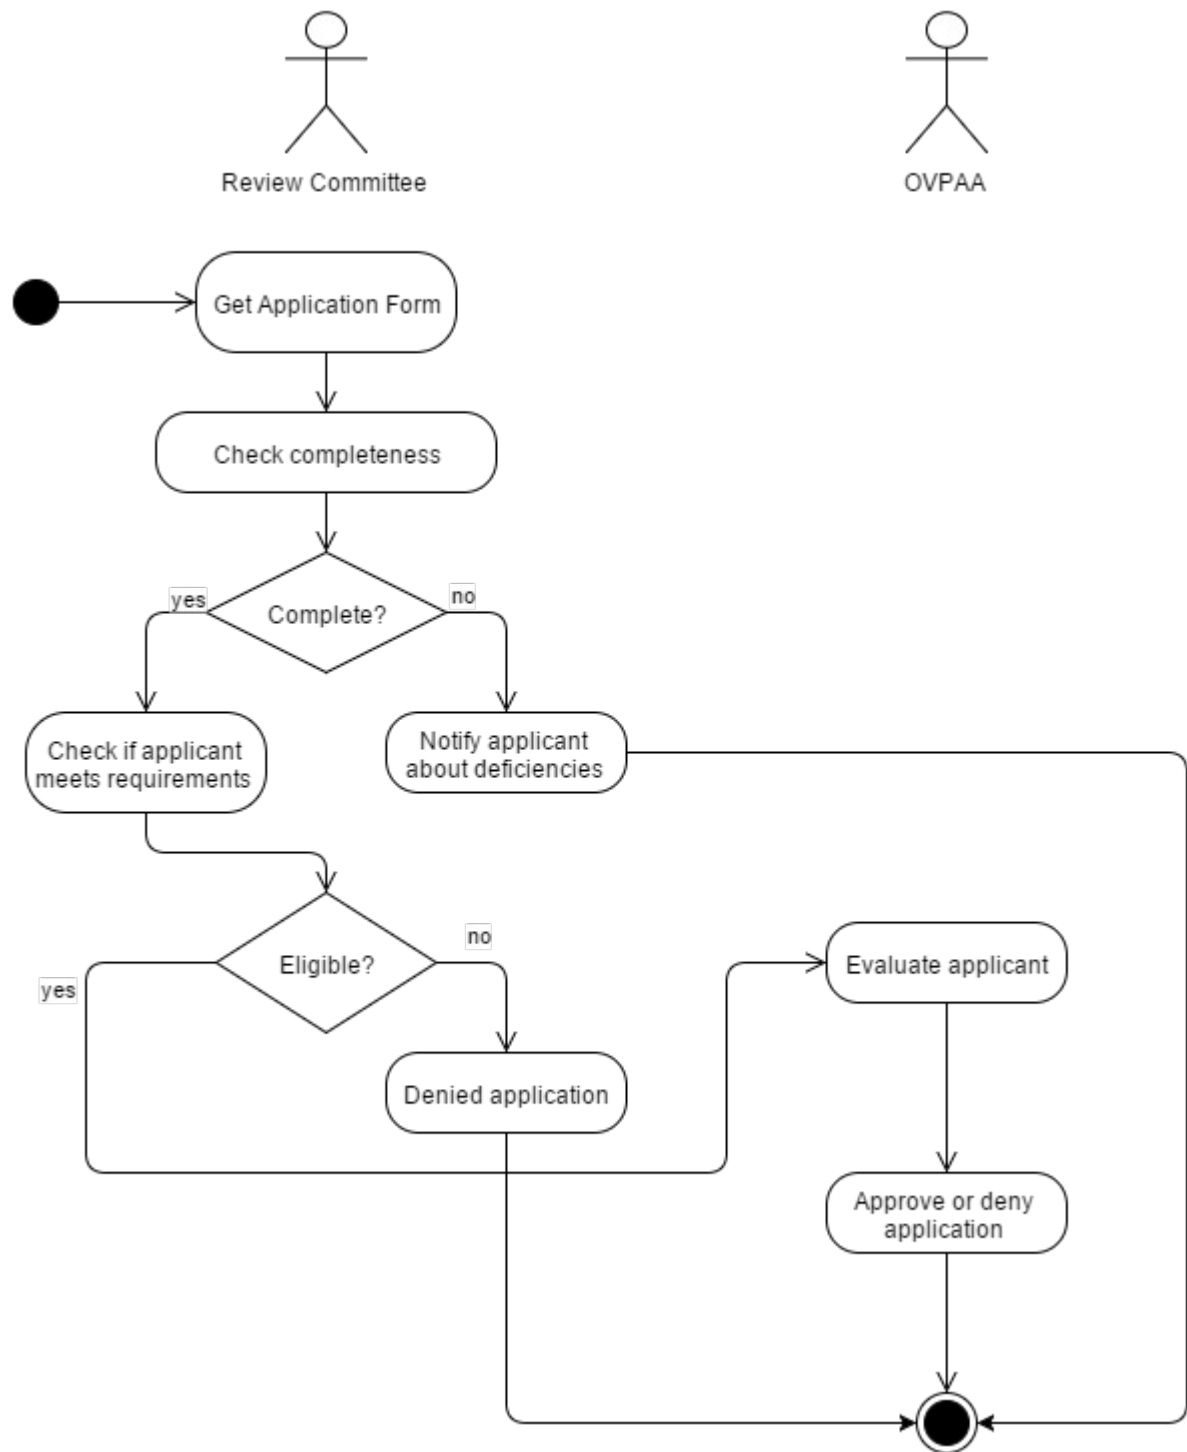

Description: This use case is one of the major functionalities of the program, wherein the OVPAA personnel reviews all existing applications. After all application forms have been received, it will be checked for completeness and the review committee then verifies if the applicant meets all the scholarship requirements. After this, all eligible applicants are assessed to determine who qualifies for a scholarship grant.

Preconditions: There must be an existing application.

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow)	1. Review committee gets application form. 2. The reviewer checks the completeness of the application. Does the form give all necessary information about the applicant? Are the supporting documents complete (if any)? 3. Reviewer checks if the applicant meets all the specified requirements for a grant 4. The OVPAA evaluates all of the eligible applicants' qualifications. 5. Applications may be accepted or denied depending on the assessment.
Scenario 2 The applicant has deficiencies.	If Step 2 in the Basic Flow fails, the applicant is notified of his/her deficiencies.
Scenario 3 The applicant is not qualified for a scholarship grant.	If Step 3 in the Basic Flow fails, the applicant will be marked as ineligible and will no longer be a candidate for assessment.
